On 5th February 2022, our College Eco-club, College NSS and Zoology department jointly establish *The Vermicompost Unit* in our college campus on the occasion of *Azadi Ka Amrut Mahotsav*. The vermicompost unit has greater benefits in agriculture, so that its awareness is essential. For the establishment of vermicompost unit about 35 students including NSS students are worked.

The vermicompost has great benefits like- it promotes growth and increases the crop yield and also reduces the usage of harmful fertilizers that lowers the soil fertility. It also enriches the fertility of soil.

The students are got the knowledge about vermicompost and they can be easily establishing this unit in their own agricultural field for the purpose of organic forming.

NSS UNIT AND DEPARTMENT OF MANAGEMENT

Jointly Conducted Survey on “Mahiti Kanaja”

Introduction:

The Government of Karnataka is in the process of building and strengthening 'Mahiti Kanaja' (<https://mahitikanaja.karnataka.gov.in/>) - a single web portal for accessing information related to all public services and schemes. This also is a platform that Government can use to disclose information related to the functioning of public institutions across the stages of planning, budgeting, implementation, and evaluation thereby being a landmark step in bringing more transparency and accountability in the governance. Through this progressive step, the Government of Karnataka also wishes to move towards a “Janta Information System” from a “Management Information System”. In order to realize this objective, the Centre for e-Governance has initiated “Digital Dialogues” – a monthly tripartite dialogue with CeG, DPAR (e-Gov) Department, Line Departments and Civil Society Organizations. Civil Society Organizations are aggregate of non-governmental organizations and institutions that manifest interests and will of citizens the representatives play a critical and diverse set of roles in societal development. Working across a range of issues to discuss what information is most relevant in terms of public interest that ought to be disclosed on the Mahiti Kanaja. Civil society representatives are grassroots activists who have had years of experience working in sectors like labour, education, healthcare, social security, Dalit and Adivasi rights, local governance, child rights etc. They are well versed with issues pertaining to the sector on the ground, the various schemes run by the Government in the sector

and the pain points in the implementation of these schemes. In short, these are activists who know exactly what information provided at which level can help citizens access their rights individually and collectively. Through these monthly dialogues facilitated by CeG, we aim to develop formats in which Departments are then asked to disclose information on Mahiti Kanaja.

We believe Mahiti Kanaja and Digital Dialogues are substantial support for the democracy to be more participating, for accessing rights, stake claim to public information as peoples' resources and for supporting open governance in Karnataka. Through this effort we also plan to expand the digitization of schemes and services in the State in a systemic manner so that it does not become discriminatory, exclusionary, and inaccessible to people. Mahiti Kanaja also shall play a significant role in improving the functioning of other good governance initiatives like the Integrated Public Grievance Redress System, Family ID program, and Karnataka Open Data Initiative. Having said this, as Centre for e-Governance we also acknowledge that Digital Dialogue and Jan Mahiti Kanaja, and technology in general, are just the means and not the end. The end goal remains to reach out to the most marginalized and needy as mentioned in Gandhi's Talisman and see how they can get benefit from these steps.

Objectives:

1. To give awareness to the villagers about Karnataka Government schemes.
2. To create awareness about children nutrition.
3. To construct houses for poor and needy families.
4. To give the awareness to construction of toilets for every house to eradicate "BAYALU SHOUCHA".
5. To create awareness among village people to drink potable water.
6. To create awareness to save environment.
7. To make plastic free houses and villages.
8. To keep the village clean and green to eradicate of critical diseases.
9. To get information about the facilities and limitations of Gram Panchayat.
10. To construct the smokeless Stoves.
11. To inform the villagers to open their account in nationalized bank and avail the facilities.

Report:

The Government of Karnataka is in the process of building and strengthening 'Mahiti Kanaja' a single web portal for accessing information related to all public services and schemes. This also is a platform that Government can use to disclose information related to the functioning of public institutions across the stages of planning, budgeting, implementation, and evaluation etc., under "Amrit Samudaya Abhivruddhi Yojana" in our college NSS Unit and Department of Management jointly conducted a survey by questionnaire on the Mobile App that is "Mahiti Kanaja" at adopted village, Adahalli. When our programme officers and volunteers take an initiation on this app we come to know that some of problems like malnutrition among the children, huts in some areas of the village, half of the houses do not have toilet facilities etc.,

When we looking at the environmental consciousness, people do not realize that defecting by the side of the road, plastic items are found in the streets, which is main reason for the spread of infectious diseases. Therefore, to create environmental awareness in the village, to make it a plastic free village, the construction of smokeless stoves, construction of toilets etc.,

The Gram Panchayat which provides these facilities without realizing the shortcomings of the people is doing development works under many scheme of the Central Government as follows:

1. To increase the awareness of health among the people, doctors should deliver a lectures as well as conduct awareness programmes.
2. Malnutrition in children was identified and given good food, milk, fruits, eggs and protein rich food, by this children's malnutrition could be eliminated.
3. Under Basava Jayanti Yojana we identified that people do not have houses in the village and helped them for construction of houses by providing Government facilities. Along with that, we gave awareness to construct the toilets.

4. It is imperative that the village Panchayat informs how the women of the village can get Gas facility under the Central Government Scheme and how it is beneficial to the environment.
5. When a survey was done in the same village, it was found that people do not have a Nationalized Bank Account, many of women's have self help groups and they are doing self employment with the help of the bank.
6. Clearing the shops selling drugs and meth, in front of the school and colleges of the village and for that we have to conduct drug and meth awareness programs among the youth of the village, to make it an addiction free village.
