COLLEGE ATHANI-591304 DIST: BELGAVI****DEPARTMENT OF ENGLISH****Language Lab Classes for All Beginners****1. Objectives:**

Language Lab is a scientifically proven, methodologically designed language teaching system that can be deployed in colleges. It incorporates various therapies, methodologies and concepts. It is an implausible combination of excellent Language Lab technology and complimentary high quality English teaching content that has been designed to fit the needs of individual students either for getting a job or pursuing higher education.

Language lab is an innovative platform for learning, grooming and placement. This software make students job ready by providing career skill courses which enhance their overall personality and brush up their existing skills. It helps in improving communication skills, gain command over the language, gain confidence and can able to face the challenges. This software is also available in other foreign languages which one can learn and grow its career prospects. It covers a wide range of competitive exams preparation, study material like of SSC, Management, Banking, Teaching, Civil services and many more exams to practice and excel in them.

The English language Lab established in 2015 has been used to facilitate classroom engagement and interaction via computer-based exercises and activities

to maximize proficiency in language components (vocabulary and pronunciation) and in language skills (listening, speaking, reading and writing).

The English Language lab provides a diverse experience from the conventional system of teaching and learning English language communication skills and offers advanced features such as authentic recorded materials, spoken by different native speakers, that expose the students to the near-ideal pronunciation of Kannada and Marathi native speakers.

Orthophonic devices are used to enlarge language competence through course materials such as pronunciation drills, grammar exercises and listening tasks. The English language lab has the facility for 10 users and provides course materials from E-Class SW Version 2.0 for Multimedia Educational Network System. A blended methodology of language teaching is adopted in the language lab with the mentor explaining the language concepts, guiding the students through the different modules and then the students proceeding to practice them individually at their own computer systems in the lab.
